Medical Facilities Generate Significant Revenue and Employment in Southeast Michigan

The health care industry is a significant source of money and jobs in Southeast Michigan. In total, the region's major hospitals and health centers generated close to \$11 billion in revenue in 1998 and employed more than 110,000. Although there have been many mergers, closures and changes in recent times, health care remains a major industry for Southeast Michigan, serving the population's health needs.

With eight hospitals and 34 major medical centers, Mercy Health Services led the health care industry in 1998 with \$2.53 billion in revenue and more than 26,500 full-time equivalent employees. Henry Ford Health System, with its four hospitals and 28 medical centers, was second with over \$2 billion and 16,150 employees, followed by the Detroit Medical Center (seven hospitals, 17 major centers) with \$1.7 billion and over 15,500 employees.

About the Medical Facilities in Southeast Michigan map

Data for this map were compiled from many resources including; *Crain's Detroit Business*, the Greater Detroit Area Health Council, the Southeastern Michigan Health Association, SEMCOG and the Web sites of the major health systems and hospitals.

Many thanks to Gary Petroni, Director of the Community Health Assessment Program and the Center for Population Health (Southeastern Michigan Health Association) for his significant contributions to this map.

Data are organized by health system in order to simplify and quantify the information. The map and accompanying data are not intended to be all inclusive. Information on hospitals, major medical centers and affiliation was compiled from each health care system's Web site and SEMCOG data; it may not include recent changes. Medical centers chosen for the map were those that each health system deemed as their larger outpatient centers. Not all centers, such as physical therapy centers, are included.

Medical Facilities in Southeast Michigan is the second map in the Economic Activity Map series published by SEMCOG, the Southeast Michigan Council of Governments. The first map, *Foreign Investment in Southeast Michigan*, is available by calling SEMCOG Information Services, (313) 961-4266.

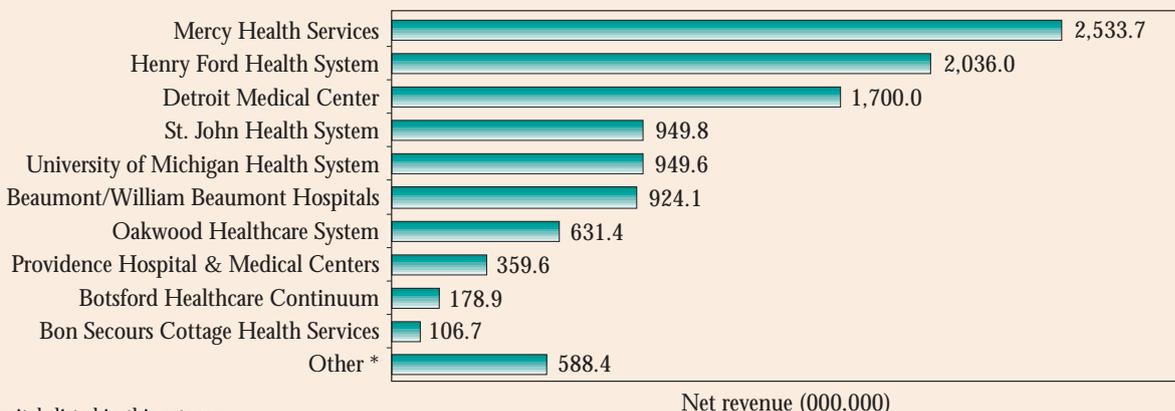

SEMCOG is a regional planning partnership serving 4.8 million people in the seven-county region of Southeast Michigan.

Number of Employees by Health System

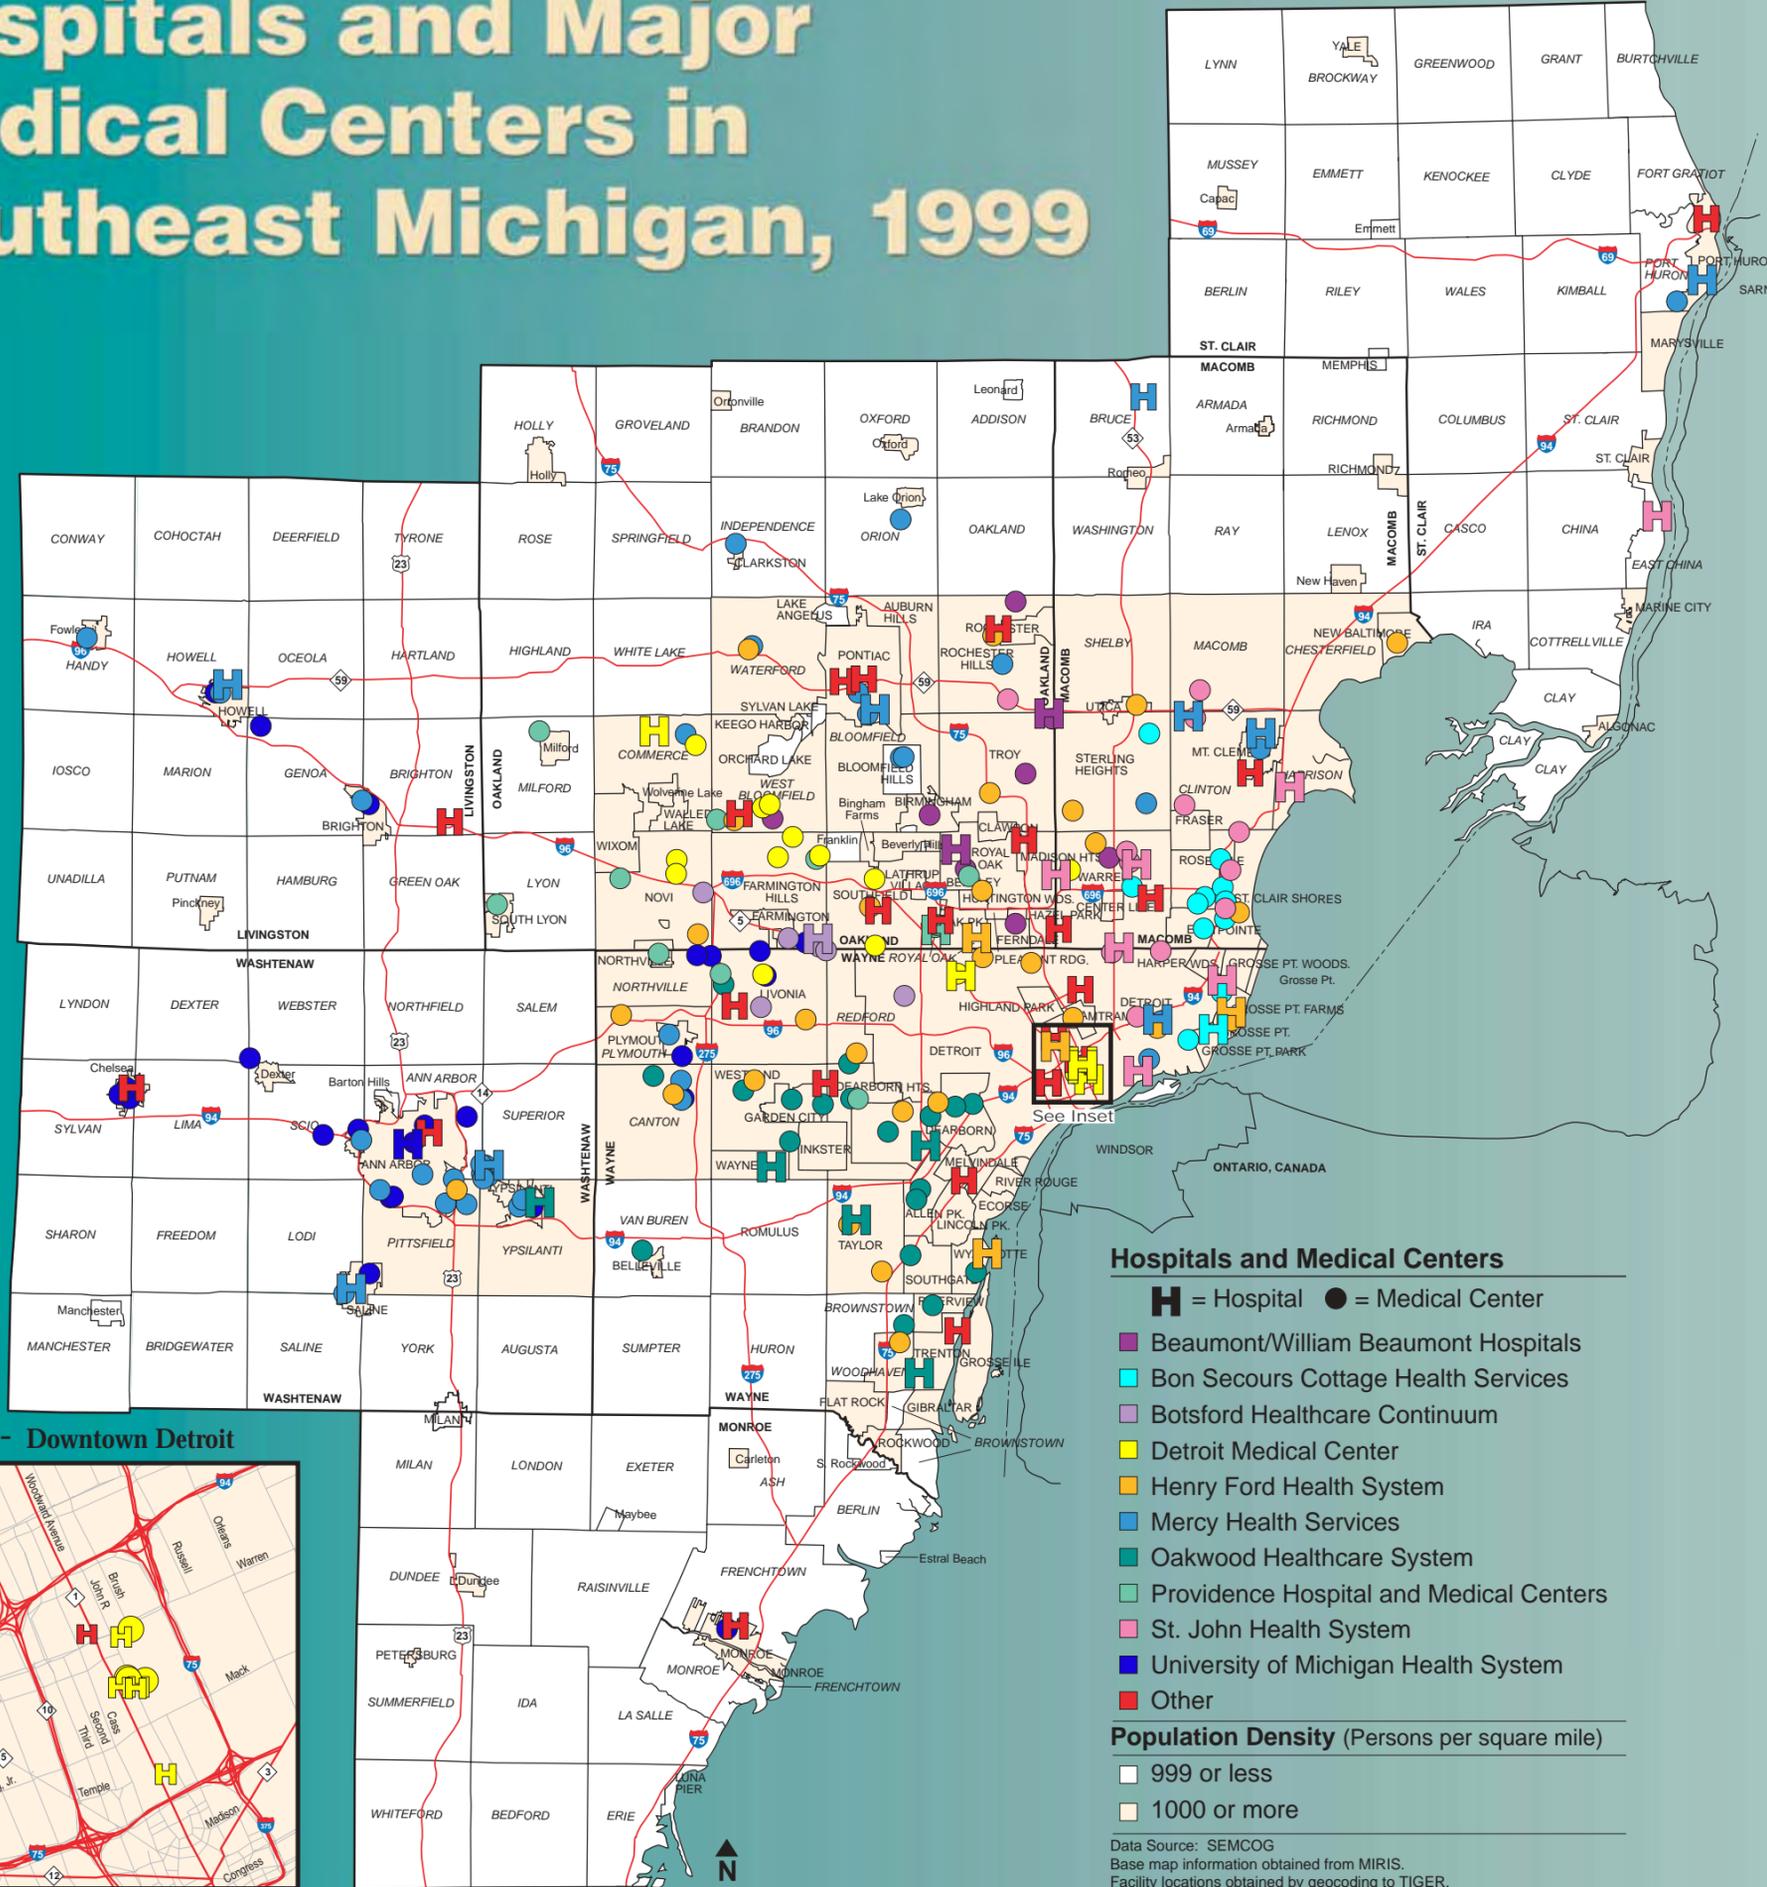

Note: Employment data by health system is as of January, 1999. Source: *Crain's Detroit Business*
Employment data for 'Other' category is first-quarter 1998 data. Source: SEMCOG.

Revenue by Health System

* Data not available for all hospitals listed in this category.
Note: 1999 revenue was not available at time of print.
Source: *Crain's Detroit Business* and SEMCOG.
